

## The Jesse Tree

*The Jesse Tree is a faith-based non-profit organization that connects people with the medical care, social services and ministerial resources they need to rebuild their lives and uplift their spirits.*

*Connecting: Through direct services and a network of partners and service providers The Jesse Tree ensures that clients receive all the care and services they need.*

*Rebuilding: The Jesse Tree rebuilds lives by addressing common problems in our community. From hunger to education to chronic conditions The Jesse Tree works to alleviate suffering for all residents in our area.*

*Uplifting: It was the hope of our founders that the roots of The Jesse Tree would be works of mercy, through which those seeking help would be uplifted, their dignity restored and their independence and self-sufficiency re-established.*

## The Jesse Tree Vision

Embracing the mission of spreading the message of God's mercy, the vision is to serve the whole person – body, mind and spirit, while also considering the household, community and overall impact of the person's environment.

Adapting modern technology to elevate the dignity and effectiveness of caring ministries, coordinating care, bringing services to those in need and reducing the need for transportation are primary to the goals and objectives of The Jesse Tree, including.

- Improving stewardship of local resources
- Reducing duplication of effort
- Integrating healthcare, social services and ministerial assistance
- Teaching individuals and families to take charge of chronic conditions that negatively impact their health and well being.
